

I enthusiastically support Laura McCoy for re-election to the Green Bay Area Board of Education. I first got to know Laura in the spring of 2017 when I decided, after serving for 12 years on the board, not to run for re-election.

Laura was successful in filling my seat on the board. In that first year she eagerly sought my advice as she learned of her new duties and responsibilities. But since that time, I've seen Laura grow into an independent advocate for students, not afraid to take difficult positions.

The school district and its 19,000 students will benefit from her continued service on the board.
